Eligibility Requirements

1. For the resident scholarship, (Category 1) the applicant and their family must reside or receive direct housing benefits for the entire senior year (and at least 12 months prior to the application deadline) through any housing program administered by any agency that is a member in good standing of Southwest NAHRO.
2. For the staff family scholarship, (Category 2) a parent or legal guardian of the applicant must have been employed by the agency for the entire senior year (or at least 9 months prior to the application deadline) and the agency must be a member in good standing of Southwest NAHRO. At the discretion of the judges, the consideration of family circumstances and financial need may be a factor in selection of the recipient.
3. For Categories 1 and 2, the applicant must have maintained an overall 3.0 grade point average for the total of his/her high school career, and the student must commit himself or herself to enrolling in a college or vocational training program beyond high school graduation.
4. For the resident Head of Household scholarship, (Category 3) the applicant and their family must reside or receive direct housing benefits for at least 12 months prior to the application deadline through any housing program administered by any agency that is a member in good standing of Southwest NAHRO.
5. Applications submitted that are not in accordance with the instructions will not be considered for judging.

The program is competitive and awards are based on academic achievement, extra curricular activities, family need and community involvement.

Scholarship Payments:

In an attempt to expedite scholarship payments, eliminate lost payments, and to make a greater impact on the students as to who is providing the scholarship funds, SWNAHRO has established specific scholarship payment procedures. For one-year scholarship recipients, the program coordinator will obtain enrollment information from the student; after which a check in the scholarship amount will be mailed to the housing authority that sponsored the student. The agency is then asked to make the presentation of the check to the student and his or her family at a Board Meeting or some other appropriate event.

For those recipients of four-year scholarships, the procedure will be the same for the first year. That payment will be followed by an annual payment of \$1,000 for the next three years provided the student maintains a 2.5 average. For those three years the sponsoring agency will collect the grades from the previous year, plus some evidence that the student is enrolled in the then current fall semester, and send that information to the program coordinator, after which a check will be forwarded to the housing agency to present to the recipient. At this time, the agency may want to recognize the student for continuing success.

Certification: The housing agency must certify that the applicant is a resident or child of an employee of the agency. The agency must also certify that it is a member in good standing of SWRC NAHRO.

Definitions: A graduating senior of a resident family (Category 1) is a high school graduate of the current program year who is a member and resides with a family, who resides in or has received direct housing benefits from a SWRC NAHRO member agency for the twelve months prior to the application date. A graduating senior of an agency staff family (Category 2) is a high school graduate of the current program year who is a member and resides with a family who has one parent or guardian employed with a SWRC NAHRO member agency for at least nine months prior to the application date. A head of household (Category 3)

JUDGING

- a) Scholarship applications will be evaluated and judged on two levels. The Committee Chair will review grade point averages and determine the point total for grades and ACT scores. A panel of judges representing the States in the Region will evaluate the students' academic achievements, extra-curricular and community activity involvement. The panel of judges will also score the essay, financial need and determine the overall performance.
- b) In judging the scholarship applications the judges should consider all aspects of the application that may have an impact on each judging category. One would perhaps consider an applicant's part-time and/or after school job record (with private enterprise business) as a possible balancing value for an outstanding student who worked instead of participated in extra-curricular activities. Non-government jobs should only be considered because they are rarely political and a reflect a student's self-determination as compared to say a JTPA or CETA job, which often has political attachments.
- c) The letters of recommendation submitted by each student should be considered in the evaluation of the extra-curricular activities as well as the community activities. Emphasis in evaluation of the letters should be given to the position of the writer, the obvious familiarity (or lack thereof) of the writer with the student themselves, and the overall quality of the recommendation. One needs to separate the good intentions of the writer from the quality and validity of the recommendation.
- d) The general overall performance evaluation is the "gut feeling" of the judge with regard to the excellence of the student. A general review of transcripts and ACT scores should be included in this evaluation.
- e) In scoring each applicant, the judges should consider giving the most qualified student the maximum points available in each category and reduce the score for each succeeding applicant by an appropriate amount. This should be especially considered for the overall

performance score with as much as three to five points being given for each step. Please bear in mind that students may receive tie scores for grades and ACT scores so it is important to give some differentiation on the objective section.
